# ANTICHESS

Captures are mandatory. Lose all your pieces to win. Inverts the entire logic of chess.

*Antichess — starting position*

## SETUP

**Board:** Standard 8×8.

**Setup:** Standard chess setup.

**FEN:** rnbqkbnr/pppppppp/8/8/8/8/PPPPPPPP/RNBQKBNR w KQkq - 0 1

## RULES

- ♦ If a capture is available, you **MUST** capture. If multiple captures are available, you may choose which one.
- ♦ The King has no royal status — it can be captured like any other piece and there is no check or checkmate.
- ♦ No castling.
- ♦ Pawns may promote to King (in addition to the usual pieces).
- ♦ Stalemate (no legal moves) is a **WIN** for the stalemated player.

## **WIN CONDITION**

Lose all your pieces, or be stalemated.

## **STRATEGY**

You want to force your opponent to capture your pieces while avoiding being forced to keep yours. Opening theory is highly developed — certain openings force wins within a few moves.
